

Quest

Get Started with Looker

3 hours Introductory Free

Earn a **skill badge** by completing the **Get Started with Looker** quest, where you learn how to analyze, visualize, and curate data using Looker Studio and Looker.

A skill badge is an exclusive digital badge issued by Google Cloud in recognition of your proficiency with Google Cloud products and services and tests your ability to apply your knowledge in an interactive hands-on environment. Complete this Skill Badge, and the final assessment challenge lab, to receive a digital badge that you can share with your network.

Congrats! You completed this quest and earned a badge. Become a cloud expert and start another.

Lab

Looker Studio: Qwik Start

Data Studio lets you create dynamic, visually compelling reports and dashboards. Watch the short video [Data Studio: Qwik Start - Qwiklabs Preview](#).

★★★★★ 30 minutes Introductory Free

Lab

Looker Data Explorer - Qwik Start

In this lab, you will create a series of visualizations from the Airports and Flights datasets and save them to a dashboard in Looker.

★★★★★ 30 minutes Introductory Free

Lab

Looker Developer - Qwik Start

In this lab, you will learn about the fundamental LookML structures, create a view, and join the new view to an existing explore.

★★★★★ 45 minutes Introductory Free

Lab

Get Started with Looker: Challenge Lab

This challenge lab tests your skills and knowledge from the labs in the **Get Started with Looker** quest. **You should be familiar with the content of the labs before attempting this lab.**

★★★★★ 45 minutes Introductory Free
